Mountain View, CA 94040

---

Professional logistics coordinator, instructor, and full stack developer with over 10 years of combined experience in a wide range of skills and interests ranging from software development, teaching, coaching, and management. A team player with an efficiency-driven, organized, and resilient mindset that values integrity and always strives to ensure customer satisfaction and overall excellence with company goals in mind.

## Technical Skills

**Languages & Technologies:** React, MongoDB, Express, Node, Angular, Python Javascript, HTML, CSS, Swift, Flutter, Dart, Bootstrap, Materialize, C, MySQL

**Tools & Software:** Git, Github, VS Code, Postman, Xcode, Unity, Heroku, AWS, Netlify

## Additional Skills

Communication (verbal and written), leadership, teamwork, time management, self-motivation, organization, desire to learn, meticulous, problem solving, highly motivated.

## Coding Projects

### React Tetris Clone

Demo: [amazing-kalam-046aa5.netlify.app/](https://amazing-kalam-046aa5.netlify.app/) | Github: [github.com/imronha/reactTetris](https://github.com/imronha/reactTetris)

- Tetris clone created with ReactJS, styled-components, custom hooks, and css.

### Devbook (Developer Social Media App)

Demo: [limitless-waters-90560.herokuapp.com/](https://limitless-waters-90560.herokuapp.com/) | Github: [github.com/imronha/devbook](https://github.com/imronha/devbook)

- Full stack social networking site designed for developers using MongoDB, Express.js, ReactJS, Node.js, redux, moment, axios, and the Github API. Users can sign up, create, read, update, delete profile information and can view other developers profiles on the network.

### COVID-19 Tracker App

Demo: [condescending-lamport-cf54b7.netlify.app/](https://condescending-lamport-cf54b7.netlify.app/) | Github: [github.com/imronha/covid19](https://github.com/imronha/covid19)

- Application designed to showcase current coronavirus cases worldwide using React.js, Material UI, chartjs-2, axios, react-countup, News API, COVID-19 API by visualizing data and serving current news.

### React Chat App

Demo: [5eb879b0c2f2d219e9287487--romantic-sammet-487476.netlify.app/](https://5eb879b0c2f2d219e9287487--romantic-sammet-487476.netlify.app/) | Github: [React Chat App](https://github.com/imronha/React-Chat-App)

- Real time chat app created with React.js, socket.io, node.js, react-emoji, and react-router that allows users to join a room and chat with other users.

## Work History

### Logistics Coordinator / Instructor 2018 - Current

S.A.M. Singapore Math, Millbrae, CA

- Designed custom python scripts to automate certain processes and procedures to boost instructor efficiency by over 50%.
- Promoted within 12 months due to transforming nearly 100% of student's math scores by using Singapore Mathematics to instill confidence and conceptual understanding of core topics.
- Implemented new processes and procedures to improve instructor grading time, accuracy, teaching methodology, and communication between instructors, students, and parents and reduced student withdrawal rate by 70%.

## **Coding Instructor 2018-2019**

*KidzToPros LLC, San Jose, CA*

- Optimized teaching methodology to effectively teach large classrooms of 30 students to ignite interest and curiosity in coding and science.

## **IT and Systems Administrator 2017-2018**

*Samirian Chemicals Inc., Campbell, CA*

- Created, tested and implemented new scripts for NetSuite to help automate tasks and increase efficiency for sales, marketing, and current vendors. Updated currently deployed scripts from SuiteScript 1.0 to SuiteScript 2.0 to maximize code reusability and readability.

## **Dietetic Assistant 2013 - 2017**

*UC Davis Medical Center, Sacramento, CA*

- Increased patient satisfaction by 20% through prioritizing patient health, safety, and satisfaction by meticulously and accurately processing patient care orders.
- Ensured that patient meal preferences adhered to therapeutic prescriptions, allergies, and fluid restrictions with nearly 100% accuracy.
- Prioritized critical orders in order to provide 100% completion rate of time sensitive material while simultaneously receiving high volumes of calls from hospital staff.

### Education

## **Coding Bootcamp Triple Blackbelt (Highest Honors) 2017**

*Coding Dojo - San Jose, CA*

- Successfully completed 3 full stacks to earn highest honors (Python/Django, MEAN Stack, and Swift)

## **Bachelor of Science: Clinical Nutrition, Japanese 2008-2012**

*University of California, Davis - Davis, CA*

### Interests

**Educational Interests:** Coding Frameworks, STEM Blogs, videos, documentaries, Logical Puzzles ,Science, Physics, Astronomy, Robotics, DIY tech projects, Games and Game development.

**Recreational Interests:** Volleyball (Indoor and outdoor), Traveling, Photography, Videography, Hiking, Swimming, and other outdoor activities.
